

# 2023 Passive House Network Conference

Share your ambitions. Passive House is the platform.

Denver & Online | Sept 28 - Oct 6

Communities are being stressed and assaulted by the escalating effects of the climate crisis: wild fires, droughts, floods, conflicts, energy insecurity, poverty, sickness and inequality. Given the opportunity to build back, let's explore how we can build better buildings, better communities and a better world. **Share your ambitions:** projects, policy, finance, design & art, safety & health, social security & justice. Imagine and demonstrate what's possible. **Passive House is the platform.**

## Schedule

**Thursday, September 28**

### Online-Only Conference

+/-16 expert topic-specific presentations and Q&A sessions. Sessions to be related to, and reinforce in the October 4-5th in-person program.

**Tues - Wed, Oct 3 & 4**

### Workshops in Denver

1.5 days of topic-specific workshops related to October 4-5th program.

**Wed - Thursday, October 4 & 5**

### In-person Denver Conference

1.5 days of expert presentations and panel discussions (accessible online), live expo, and in-person networking happy hours.

**Friday, October 6**

### Region Building Tours

In-person tours of Passive House developments.

### In-Person Venue

Easily accessible in the heart of downtown Denver, the McNichols Civic Center is an historic public building.

### Partner with Us

If you're a community organization, government agency or global NGO working in the high-performance building space, let's work together!
